

One Unified Servicing Experience for Your Team

Savana's Banker Experience is a single pane of glass that enables your bankers to service customers quickly and seamlessly across all bank assisted channels and all retail and commercial products - the way your bank should *work*.

**Optimize Your
Banker Experience**

**Exceed SLAs and
Customer Expectations**

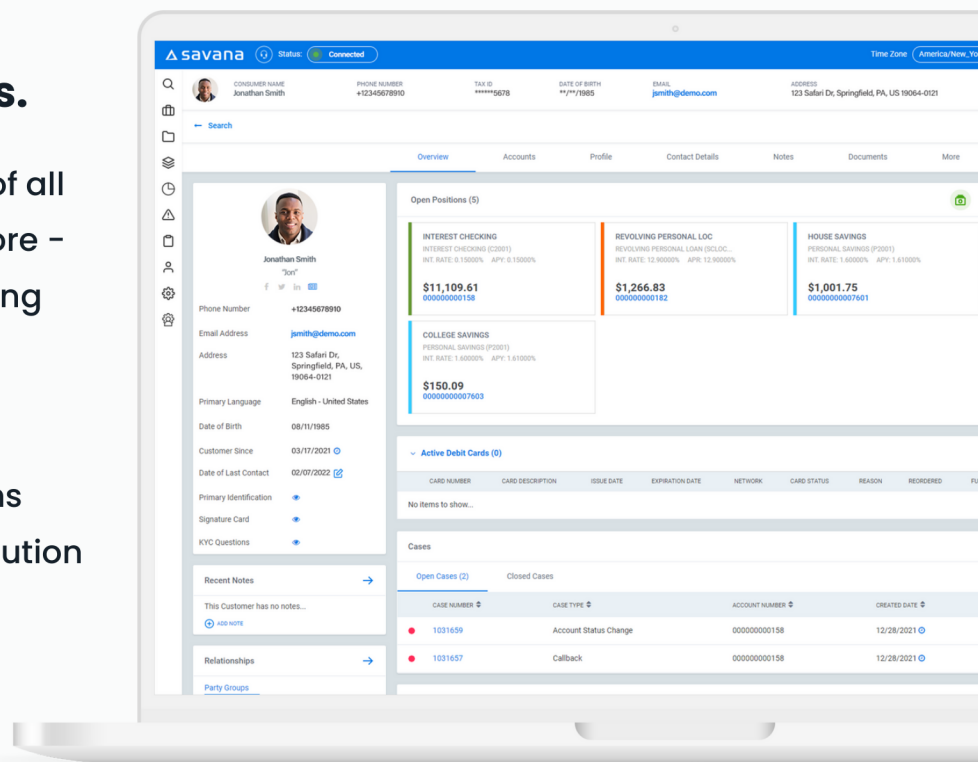

**Extend Orchestration
to Customer Self-Service**

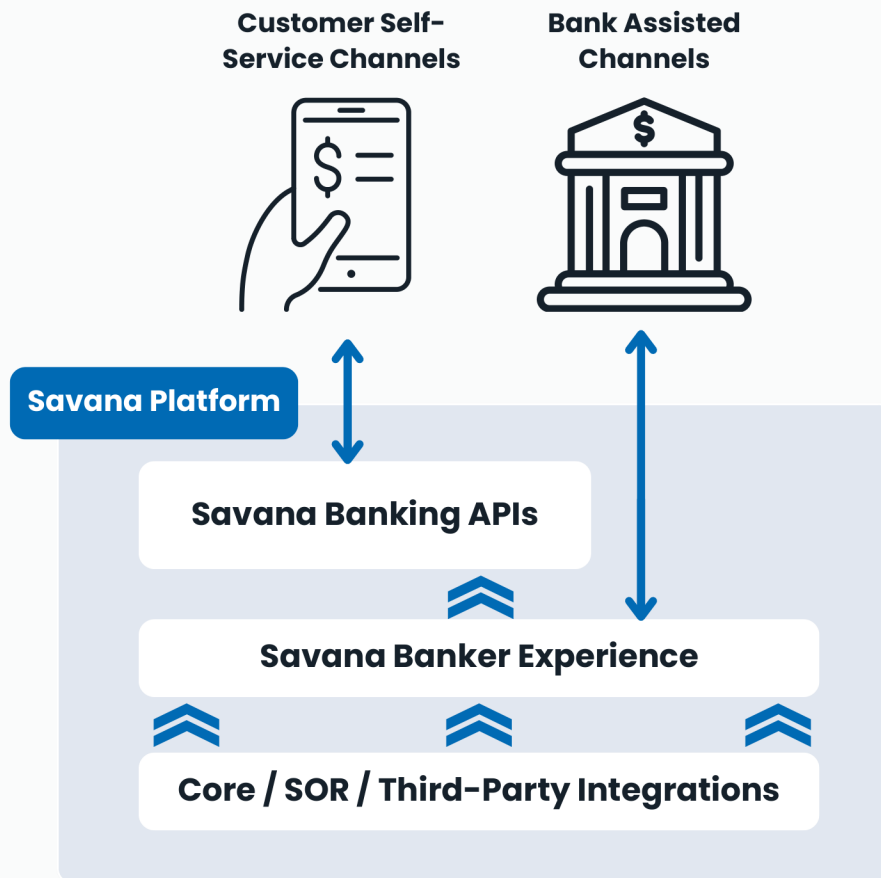

Integrate, Consolidate, and Automate Operations.

Real-time complete visualization of all customer accounts, cards, and more - with one all-encompassing servicing solution driving:

- Workflow & Case Management
- Communications & Notifications
- Statement Generation & Distribution
- Secure Document Vaulting
- Ecosystem Integrations
- Operational Reporting

Deliver Faster, More Personalized Service

Savana's Banker Experience empowers your team with a single, unified control center for all customers, processes, offerings, and cores.

Transformation Begins Inside Your Bank

Additional Features:

- Core-agnostic
- Real-time multi-core visualization
- Best-of-breed fintech integrations
- Model bank pre-configuration
- Optionality to extend orchestration into customer self-service channels via APIs

Key Benefits:

- Boosts operational efficiency and eliminates reliance on multiple servicing interfaces
- Minimizes vendor mgmt. and platform costs
- Standardizes processes and data across systems
- Enables faster, more personalized service
- Increases adherence to compliance
