

The Way Your Credit Union
Should **Work.**

Unify Your Credit Union's Operations for Next-Level Member Satisfaction.

Savana is a core-agnostic digital delivery platform that unifies and orchestrates your credit union's channels, products, and processes to enable truly frictionless interactions between your credit union and its members.

**Enable Your Staff and
Member Experiences**

**Consolidate
Your Processes**

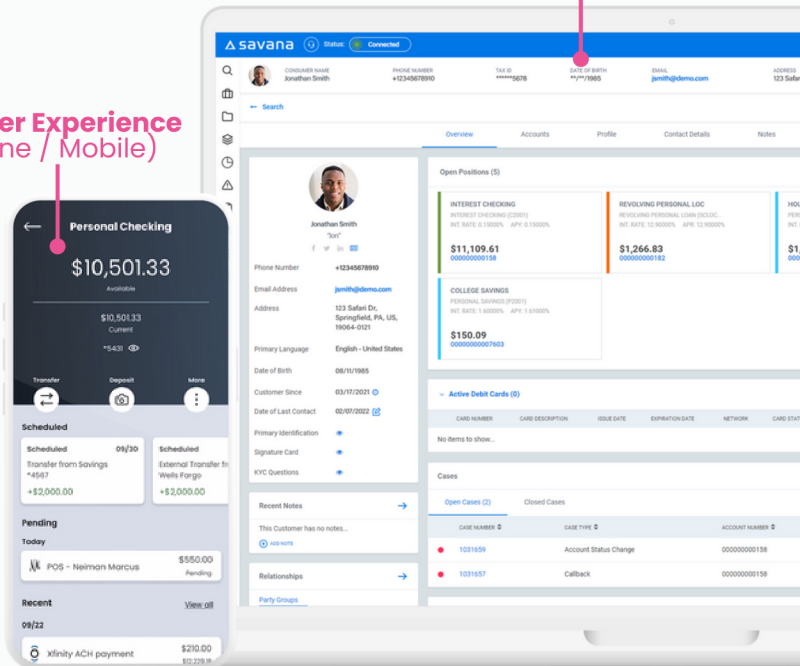

**Achieve Peak
Operational Efficiency**

One Platform, One Experience for Your Credit Union's Operations and Digital Channels.

Optimize your credit union staff operations with a unified servicing experience for maximum efficiency. Your digital self-service member channels will access the same centralized processes via APIs for unparalleled channel consistency.

**Member Experience
(Online / Mobile)**

Self-Service and Assisted Channels, United.

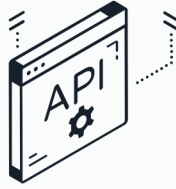

One streamlined experience for your operations *and* your members.

Key components of the Savana platform include:

Savana Banker Experience

Savana's Banker Experience is a single pane of glass that enables your member service reps to service members seamlessly across all assisted channels and all retail and business products. This is your control center for all process workflows, member communications, operational reporting and more.

Savana Banking APIs

Savana's Banking APIs give you control of your credit union's processes across every channel. This centralized API library extends the robust credit union assisted functionality of the staff experience into your digital channels for a consistent member experience, regardless of the channel.

Savana Member Experience

Savana's Member Experience provides onboarding and online/mobile banking with a single code base - requiring less maintenance and ensuring design consistency across devices. Robust analytics provide a view into all member and prospect interactions and can be used for journey optimization.

Savana is the Way Your Credit Union Should Work.

The Savana Difference:

- Realtime Integration to all Cores and Channels
- Core and Product Agnostic
- Best-of-Breed Integrated Ecosystem
